

NTC THERMISTORS: TYPE FL

CHIP IN FLEXIBLE PCB ASSEMBLY

DESCRIPTION:

Small NTC chip thermistor enclosed in a flexible PCB.

FEATURES:

- Thin sensor (0.65mm maximum)
- Flexible
- Electrical connection by soldering or standard edge connectors
- Suitable for temperature measurement in rechargeable battery packs using prismatic cells

OPTIONS:

- Other resistance-temperature characteristics
- Different track layouts

DATA for FL103C4R5:

Resistance at 25°C:.....10k Ω \pm 5%

B25/85:3435k \pm 1%

Temperature range:.....-20°C to 100°C

Pack quantity & MOQ:500 pcs

DIMENSIONS:
