

# PRESSURE SENSORS: TYPE PR100

SILICON SENSOR IN METAL BODY

PROVISIONAL DATA

## DESCRIPTION:

Isolated diaphragm micromachined silicon pressure sensor mounted in a threaded metal housing with integral connector.

## FEATURES:

- Suitable for use in corrosive media
- Stainless steel diaphragm
- Rated pressures 1 to 50 Bar
- Operation up to 125°C
- Accuracy  $\pm 2\%$  FSO
- Current or voltage output
- Ratiometric or absolute voltage output
- Absolute or gauge pressure indication
- Knurled body for hand tightening
- Range of thread sizes and materials
- Groove for o-ring seal
- Typical applications include domestic heating, refrigeration & air conditioning systems, sterilisation equipment

## OPTIONS:

- Other pressure ratings
- Alternative output ranges and tolerances
- Different connectors
- Other thread sizes
- Alternative thread materials e.g. Hastalloy C276, Monel 400, Inconel, Titanium
- Different diaphragm materials e.g. Nickel

## DATA:

**Rated pressure** ..... 1 to 50 Bar (see table)

**Maximum overload** ..... 3 x rated pressure

**Temperature range** ..... -40 to +125°C

**Supply voltage** .... 6 to 28 V d.c. (voltage mode)

**Output range** ..... 0.5-4.5 V or 4-20 mA d.c.

**Accuracy** .....  $\pm 2\%$  FSO over -20 to +120°C

## DIMENSIONS:
